FIRST AID

FOR FLOODED AREAS

DURING the January floods, Western Electric—Service Of Supply to the Bell System—once again set in motion its machinery for meeting disasters.

From its three factories and many distributing points, it rushed telephone materials of every kind into the flood stricken areas. Day and night, telephone men and women worked to maintain

and restore the lines of communication.

Dramatic as is this emergency Service Of Supply, it is really no more important than Western Electric's *everyday* work. For 55 years, it has backed up the Bell System with an endless flow of quality equipment. A major factor in making your telephone so far reaching, so dependable!

BELL

TELEPHONE SYSTEM

Why not give the family a ring tonight? Rates to most points are lowest after 7 P. M. and all day Sunday.
